Orchestra seeks public feedback on plans for new music center

The Sarasota Orchestra is seeking public input about its planned new music center and how the project might best serve the community.

In March, the organization announced it reached an agreement to buy 32 acres on Fruitville Road between Honore Avenue and Cattlemen Road near Interstate 75. It would feature a 1,800-seat concert hall, a 700-seat recital hall, education and administrative office space, a music library, and rehearsal rooms. The orchestra also is meeting with other arts groups in the area about the potential use of the building. [Click here to view article.](#)
